

**Listing of Claims:**

This listing of claims reflects all claim amendments and replaces all prior versions, and listings, of claims in the application. Material to be inserted is in **bold and underline**, and material to be deleted is in ~~strikeout~~ or (if the deletion is of five or fewer consecutive characters or would be difficult to see) in double brackets [[ ]].

Please amend claims 1 and 5 as indicated below.

1. (Currently Amended) A frame mattress comprising a frame with a spring inlay surrounded by the frame, and a material over the spring inlay, together with a reversible mattress, arranged for abutting the material, and a cover enveloping the reversible mattress and at least partly the frame, ~~characterised~~ **characterized** in that the material **mounted to the entire top of the frame** is at least partly detachable and that the spring inlay, constituting a principally form-stable unit **of separate spring elements**, is reversibly arranged in the frame.

2. (Previously Presented) A frame mattress according to claim 1, characterised in that the spring inlay has a zone division of the springs in soft and firm zones.

3. (Previously Presented) A frame mattress according to claim 2, characterised in that the spring inlay has a zone division consisting of separate spring elements.

4. (Previously Presented) A frame mattress according to any one of claims 1-3, characterised in that the spring inlay consists of Pocket-springs.

5. (Currently Amended) A frame mattress according to any one of claims 1-3, characterised in that the material is detachably fastened to the frame with fastening means, with one part of the fastening means fastened to the frame, and ~~the~~ a facing part of the fastening means fastened to the material.

6. (Previously Presented) A frame mattress according to claim 5, characterised in that the fastening means is a hook and loop fastener, snap fastener or zipper.

7. (Previously Presented) A frame mattress according to any one of claims 1-3, characterised in that a second material is fastened permanently or detachably between the bottom of the frame and the spring inlay.

8. (Previously Presented) A Frame mattress according to claim 5, characterised in that the one part of the material is fastened to the frame by stapling.

9. (Previously Presented) A frame mattress according to claim 5, characterised in that the facing part is fastened to the material by a seam.

10. (Previously Presented) A frame mattress according to claim 6, characterised in that the fastening means is a hook and loop fastener.
